## Scout Strategy Report

### STEP 1

#### Marketing Strategy

Official global distribution exists (Amazon US, Boots UK, Notino EU) — position as premium reseller in UAE and niche markets where official distribution is thin. Leverage Naver 24,675 reviews at 4.85 rating as credibility anchor in listing content. Target UAE Shopify DTC at \$33+ for premium positioning.

### STEP 2

#### Price / Margin Strategy

Naver lowest market price ₩15,360 (\$10.74), estimated landed cost \$6.44. Amazon US official at \$22 sets US floor. Target \$26.99 reseller positioning in EU and UAE to achieve 4.2x margin while undercutting Notino EU \$32.72. UAE premium window at \$33+ captures 5x+ margin.

### STEP 3

#### B2B Sourcing Strategy (Advanced)

Mamonde is an Amorepacific brand — contact via [global.amoremall.com](mailto:global.amoremall.com) for authorized distribution inquiries. OEM not available. MOQ typically 500-1,000 units for export accounts. Large corporate scale (아모레퍼시픽 대기업) means structured MOQ — confirm via official B2B portal.
